ACCESSIBLE DESCRIPTION OF FLOOR PLAN

COMPLETED: 2015

CAPACITY: 506 residents

This building is a four-story U-shaped structure with twelve first-floor entrances. Two are at the loading dock facing the railroad—one leading to a stairwell to the second floor and the other to a first-floor bedroom wing. Five entrances face the volleyball court: the two at the corners open into bedroom wings, the two near the center open into stairwells, and the middle one leads to a hallway with offices and other rooms. Two entrances face the courtyard and open into small wing corridors. On the Walnut Lane wing, one entrance faces Walnut Lane and connects to the same corridor as the courtyard entrance, while another faces Grace Street and leads into a bedroom wing. The final entrance is also in the courtyard and leads through a JaCard-secured vestibule into the main lobby.

Inside the lobby, a large lounge with a stairwell to the second floor is straight ahead. The hall office and desk are to the right, dividing the lobby into two corridors. The right corridor has the kitchen on the right wall and leads to hallways with meeting rooms, laundry, an elevator, stairwells, public bathrooms, classrooms, mechanical spaces, and multiple entrances. The left corridor includes the middle back entrance, the hall director's office, the elevator, a corridor with a public bathroom and stairwell, the corridor with three public bathrooms, and then bedrooms and mechanical spaces. This side also ends in a series of hallways and entrances, including one with the trash room.

Floors two through four follow the same general layout. Each has a central lounge with a laundry room and study rooms, plus hallways on both sides containing bedrooms, mechanical spaces, elevators, and corridors with public bathrooms and stairwells. Additional hallways lead into the wings, ending in more bedrooms, mechanical spaces, study lounges, and stairwells. The second-floor lounge also includes a stairwell down to the first floor.
