Creating the best coursepack solution for JMU

We have years of experience in helping faculty members and curriculum coordinators plan, secure copyright permissions and produce course materials. Through our partnership with JMU Bookstore, we can ensure convenient sales to students. For complete details about coursepack services at Print Services, give us a call at 568-2942.

Affordable, High Quality Materials

We produce high quality, affordable coursepacks by using the latest in digital printing. We accept hardcopy originals, electronic files, or a combination. Our binding options are 3-hole punched, 3-ring binders, tape, spiral, and coil. Small packs may be stapled. We also have clear and black vinyl covers for added protection. Labeled tabs make it easy to find the section students are looking for or use a colored sheet insert. Our computer generated page numbering is an added convenience.

Quick Turnaround

Our high-speed production capabilities and direct link to the Copyright Clearance Center make it possible to produce our materials quickly.

Convenience

Located on campus, we offer free pickup and delivery services for your convenience. Proofs are available upon request. We provide one free desk copy to the professor and we keep an electronic backup copy for future use. Our partnership with the JMU Bookstore allows us to sell your coursepack in a central location where students are already purchasing their text books.

Expertise

Madison Print Services Copyrights Administrator works daily with the Copyright Clearance Center to quickly obtain copyright permissions for course material. The Administrator also works with publishers, authors and other copyright holders as needed to seek permissions.

Deadlines

Although some copyright permissions are quickly granted, others may take as long as eight weeks to obtain. We make every effort to produce all coursepacks before the beginning of classes each semester. If your course material is copyright protected, please try to meet these deadlines to ensure your students aren't missing out on any resources.

Spring coursepack requests should be submitted by November 7

Summer coursepack requests should be submitted by March 15

Fall coursepack requests should be submitted by June 30

Didn't meet the deadline? Give us a call anyway. We'll do all we can to help.
