

Education Center and Army Education Counselor

Your **Army Education Counselors** who staff the Education Centers are best equipped to advise Soldiers about military and Tuition Assistance (TA) policy and processes. Army Education Counselors are set up to understand all of the nuances in the Soldier's Statement of Understanding (SOU) and Army Regulation (AR) 621-5.

If you have a question about an Army policy or process related to TA eligibility or usage, please contact your Army Education Centers and Counselors for assistance.

Finding your Education Center:

1. Log into ArmyIgnitED, click Welcome, then click Account. This will take them into their Student Profile
2. Under their "Education Information" section, locate the "Education Center". Make a note of it.
3. Up in the navigation ribbon, click the "Find Ed Center" tab.
4. Enter the education center name from the profile and click Search.

The Education Center information should display, including a physical address, email address, phone number, and hours of operation. They can also click View Profile to get even more information about their education center.

Alternatively, the Soldier can go straight to the "Find Ed Center" tab and enter their city/state or zip code to find all education centers in their area.
