

In LinkedIn Learning, there are playlists for each of the seven Talent Development Competencies that were established with input from leaders across campus. The “curated” content in each playlist addresses the specific principles and strategies for success outlined by the competency. All of these are suggested content: Talent Development advocates for you as the best judge of what content will assist and stretch you in your professional career. Remember to obtain supervisor approval for viewing LinkedIn Learning content during working hours.

You can access the playlists for each competency either by searching for them in the search bar (TD followed by space brings them all up), or-using the links below.
